CATS has far more robust features than the other recruitment systems I've explored and/or used. It can be used to manage candidate flow for existing requisitions or to build strategic candidate pipelines for the needs of the future. CATS is easy to customize the system internally to work within your existing recruitment processes.

### **SAP ERP - SAP Help Portal**

I have been trying to find a way to integrate our SAP time sheets with a web API. What I want to be able to do is allow users to enter their time sheets through a (more user friendly) web interface, and have those time sheets be automatically entered into our SAP system. Currently we use SAPGUI 7.10rev3 to enter time sheets and it is a nightmare!

### **php - Integrating SAP Time sheets into a web API - Stack ...**

In February this year, I introduced our integration road map document, which provides a comprehensive overview of our integration plan in the cloud. It focuses on the significant value customers get from holistic technology and business process integration, SAP-to-SAP, but also to any third-party application in hybrid customer landscapes.
