The South Pole An Account

The South Pole,— Amundsen's first-hand account of the expedition,— is a fascinating and highly readable history of the tenacity and perseverance of the age. "The last of the Vikings," Roald Engebret Gravning Amundsen was a powerfully built man of over six feet in height, born into a family of merchant sea captains in 1872.

All the expedition's participants received the Norwegian South Pole medal (Sydpolsmedaljen), established by King Haakon to commemorate the expedition. However, Amundsen's biographer Roland Huntford refers to "the chill underneath the cheers"; there remained a residue of unease over Amundsen's tactics.

Amundsen's South Pole expedition - Wikipedia

Roald Amundsen's account of the expedition to the geographic South Pole is a fascinating read. Although Amundsen attributed the success of the expedition to "good luck", it seems obvious that the Norwegians were simply better prepared than Captain Scott and his crew.

South Pole: An Account of the Norwegian Antarctic ...

This is the first-hand account of the discovery of the South Pole in December of 1911, by Norwegian polar explorer Roald Amundsen and a team of his countrymen, all of whom had a great deal of experience working in both the north and south polar regions.

Earth—was now warming at a rate of around 0.6C (1.1F) a decade, compared with around 0.2C (1.4F) for the rest of the planet.

South Pole warming three times faster than rest of Earth

...

The account is interesting but not particularly gripping. Amundsen left out most problems that arose, especially his falling out with a young expedition member who had been foisted on him by a financial backer; he describes in glowing terms most aspects of their preparations, interpersonal relations, and run for the Pole.

The South Pole - LibriVox

On February 10, 1911, we started for the South to establish depots, and continued our journey until April 11. We formed three depots and stored in them 3 tons of provisions, including 22 hundredweight of seal meat. As there were no landmarks, we had to indicate the position of our depots by flags, which were posted at a distance of about four miles to the east and west.
