List of Toyota Engines - Specifications, Problems ...

Change it every 5000k and give it a good flush. these engines are good for 500k if they are looked after. The most common way of them dying is when they sludge and coke up and starve themselves of oil due to lack of care - same as most jap oil burners. Its a basic engine hence why i wanted it. The D4D's seem far too fussy and fragile.

any common problems with 1kz-te diesel engine? - Toyota ...

Toyota had huge problems with their 2.0 & 2.2 diesels between 2006 & 2009. Loads of them have had to be replaced and they had an inherent design flaw. grumpynuts
